

Multiple Sibling Scholarship

Is there any benefit available to my siblings and me for attending CBU at the same time?

Yes! Each sibling can receive a \$2,000 scholarship/discount for the year, as long as they are enrolled in our traditional undergraduate program (not graduate or online) and are considered dependent students as determined by the FAFSA.

What if, after a couple of years, my sibling graduates? Can I still keep the scholarship?

If a sibling graduates or leaves CBU, you would not be able to keep the scholarship. Both siblings must be enrolled in order to maintain the scholarship.

If I become independent on the FAFSA because of my age, can my sibling and I keep the scholarship?

Yes! As long as you are awarded the scholarship before you reach the independent age of 24, you can keep the scholarship. If you become independent for any other reason (children, marriage, etc.) you would not be able to keep the scholarship.
